PROFESSIONAL AUTOMOTIVE PROGRAMME

L01774

ENTRY REQUIREMENTS
PMR / SRP / Form 3 /
16 Years old and above

DURATION
2 years

INTAKE
January, April, July & October

ASSESSMENT
70% Practical, 30% Theory (SKM)
30% Practical, 70% Theory (C&G)

Programme recognised by
Malaysian Government & Private Sector

MALAYSIA SKILL CERTIFICATE (SKM)

Malaysia Skills Certificate (SKM) in Motor Vehicle Technician Level 2 (Duration: 12 months)

This range of level prepares students in performing of major servicing and overhauling activities which required individual responsibility and autonomy.

Malaysia Skills Certificate (SKM) in Motor Vehicle Senior Technician Level 3 (Duration: 9 months)

In this level allocates students more to advance overhauling vehicle and supervisory activities. Students are able to use computerized diagnostic and maintenance equipment, and understand the principles of the control systems currently used in modern cars which helps students to write report clearly and add correctly.

C&G DIPLOMA IN VEHICLE MAINTENANCE AND REPAIR

Our ranges of International Vocational Qualifications (IVQs) are designed to measure the knowledge and practical skills of learners and designed specifically for the international marketplace. There are two types – Craft and Technician – and they are available at three levels, which are Certificate, Diploma and Advanced Diploma. They're recognized by employers all over the world, so you can take them when you travel.

The VRQs in Vehicle Maintenance and Repair are aimed at anyone interested in starting or developing a career in the motor industry.

Level 2 will suit those who have already developed a good foundation of skills and knowledge required to become a vehicle service technician and are ready to move to the next level.

HYBRID SYSTEM TECHNOLOGY

Currently, hybrid cars account for a small share of the overall automobile market, but the market for these cars is anticipated to increase in the future owing to their increasing efficiency.

3 New Hybrid System programmes conducted by Han Chiang Centre of Professional Studies :

- Basic Hybrid System
- Principles of Hybrid System
- Hybrid System Operation and Diagnostic

INDUSTRIAL TRAINING

3 months
